Triangular umbrella stand

PMTRIA2 M

This triangular umbrella stand offers a large capacity. Its 3 sides are equipped with slots for ventilation and its structure is equipped with a water retainer.

Innovative concept of umbrella stand: flatpack and assembly in 2 minutes without any tools.

Very large umbrella stand with a 10 umbrella-capacity.

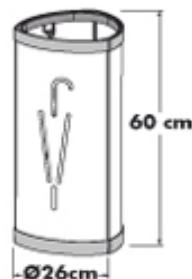

The umbrella design on each side help consumers identifying the product immediately and guarantee a fast umbrella drying.

The water retainer is 3 cm deep to retain water from umbrellas.
